

Throw Shade Like A Boss!

Our Deluxe Portable Patio System is shown here. Chairs, rug, cooler, quad and beers are not included.

Introducing The World's First Portable Patio System

You are ready for some fun in the great out doors. You load up your all-terrain vehicles and gear onto your carry-on trailer and head for the dunes.

But, here's the problem. Your family and friends are left either exposed to the harsh elements or cooped up inside a motor home away from the fun. Does this sound familiar?

Kelly Trailer Transformation has come up with a perfect solution. First, we started by asking one simple question: *Why leave your carry-on trailer unloaded and unused?*

Next, we set out to design a system that had to be strong, sturdy, quick to set up and expandable. We tried many ideas. After 5 long years of designing, building and testing we

have finally created the world's first Portable Patio System!

Check Out These Features

- **Quick Set Up.** It takes only about 10 minutes or less to set up.
- **No Tools Needed.** The framing system poles slides into place.
- **Super Strong.** Cold rolled 1" x 1" square .090 wall steel tubing.
- **Quality Built.** MIG welded. This frame is extra strong.
- **Stabilizer Legs On All 4 Corners.** The legs keep your Portable Patio System level and rock steady.
- **Compact Size.** The system takes up little space when unassembled. It's easy to transport.
- **Easy-to-install Over-head Tarp.** Bungee balls and cleats securely anchors your tarp onto the frame.

- **Gets You Off Of The Ground.** You are above the dirt, sand and critters.
- **Enjoy A Great 360° View.** There are no windows to come between you and fantastic scenery and the action!

Check Out These Upgrades

- **Comfortable Rug.** Walk on 64 in. x 20 ft. of soft. Why not spoil your feet? They deserve it.
- **Hang-on Ice Cooler Rack.** It's strong enough to support your heaviest cooler and it gets your food and beverages off of the ground.
- **Hang-on Table.** This table is super strong and gives you a nice work surface. Great for food prep.
- **LED Lighting System.** Hey! Keep the party going long after the sun goes down.
